VOLUME 50 INDEX BY BODY SYSTEM

BILIARY TRACT, LIVER, SPLEEN AND PANCREAS

	Vol:Page
Intraperitoneal fluid collections following liver transplantation in a paediatric population	50:40
Contrast-enhanced MR imaging of intrahepatic cholangiocarcinoma	50:6
Does pre-scan oxygen improve ultrasonic imaging of the pancreas?	50:26
Multiple myeloma – a rare presentation	50:63
Congenital anomalies of the portal venous system – CT appearances with embryological considerations	50:174
Superparamagnetic iron oxide imaging of focal liver disease	50:215
A histological basis for the 'sonographic snowstorm' in opportunistic infection of the liver and spleen	50:220
The prevalence and clinical significance of lymphadenopathy in primary biliary cirrhosis	50:396
Pancreatic schwannoma: report of three cases	50:492
The value of ultrasound measurement of gallbladder wall thickness in predicting laparoscopic operability prior to cholecystectomy	50:570
Reversible superior mesenteric vein thrombosis in acute pancreatitis. The CT appearances	50:628
Duodenal obstruction and obstructive jaundice due to a large submucosal gallstone – endoscopic and CT appearances	50:652
Recurrent pancreatitis caused by a duodenal duplication cyst communicating with the pancreatic duct	50:726
A sonographic-pathological correlation of liver biopsies in patients with the acquired immunodeficiency syndrome (AIDS)	50:761
Percutaneous transhepatic portographic embolization (PTPE) for recurrent hepatic encephalopathy derived from intrahepatic portal-systemic shunts	50:808
Multiple myeloma – a cause of obstructive jaundice	50:874

BONES, JOINTS AND SOFT TISSUES

Radiological evaluation of patellar malalignment using a new frame for axial imaging of the patellae	50:56
Lymphatic filling in arthrography following total hip replacement	50:90
Childhood ossification of the anterior longitudinal ligament of the cervical spine	50:115
Ultrasound guidance for injection of soft tissue lesions around the heel in chronic inflammatory arthritis	50:120
Fine needle aspiration in infected hip replacements	50:149
A continuing role for pre-operative cervical spine radiography in rheumatoid arthritis?	50:157
Direct and indirect MRI findings in ganglion cysts of the common peroneal nerve	50:168
Short tau inversion recovery (STIR) sequence MRI appearances of reflex sympathetic dystrophy	50:188
Primary high grade surface osteosarcoma	50:194
Sonographic evaluation of intramuscular ganglia	50:235
Hyperphosphataemic tumoral calcinosis in Bedouin Arabs – clinical and radiological features	50:259
Benign giant cell tumour associated with Paget's disease of bone	50:269
The aetiology and distinguishing features of solitary spinal hot spots on planar bone scans	50:327
Normal variation in the magnetic resonance imaging appearances of the sacroiliac joints: pitfalls in the diagnosis of sacroiliitis	50:371
Signal changes in the intervertebral discs on MRI of the thoracolumbar spine in ankylosing spondylitis	50:377
Can MRI predict the histopathological response in patients with osteosarcoma after the first cycle of chemotherapy?	50:384
V/Q defects and deep venous thrombosis following total hip replacement	50:400
Demonstration of popliteal artery entrapment on leg muscle scintigraphy with 99mTc MIBI and single photon emission tomography	50:404
Symptomatic metastasis from a sacrococcygeal chordoma	50:416
Magnetic resonance imaging of benign soft tissue masses of the hand and wrist	50:519
Periosteal new bone formation in Takayasu arteritis	50:578
Ultrasound in children with osteomyelitis	50:623
Giant synovial osteochondromatosis in association with acromegaly	50:657
Relative incidence and morphology of lateral and medial meniscal cysts detected by magnetic resonance imaging	50:778
Traumatic bone cysts in the jaws of a Hong Kong Chinese population	50:787
Periosteal neurofibroma mimicking osteochondroma	50:801

BREAST

Soap – another artefact that can mimic intramammary calcifications	50:64
Sclerosing lymphocytic lobulitis of the breast	50:165
Benign biopsies in the prevalent round of breast screening: a review of 137 cases	50:254
Mammographic appearances following breast prosthesis removal	50:314
Dynamic gradient-echo and fat-suppressed spin-echo contrast-enhanced MRI of the breast	50:440
The use of ultrasound for monitoring breast tumour response to pro-adjuvant therapy	50:681
Classifying interval cancers	50:774
Granular cell myoblastoma of the breast: a rare benign tumour mimicking breast carcinoma	50:800
Digital subtraction in Gd-DTPA enhanced imaging of the breast	50:848
An unusual mass in the breast: the hydatid cyst	50:869

CARDIOVASCULAR

Ultrasound-guided pigtail catheter drainage of malignant pericardial effusions	50:15
A comparison of colour duplex ultrasound with venography and varicography in the assessment of varicose veins	50:20
Radiological appearances of implantable defibrillator systems	50:29
Central venous catheter fracture due to compression between the clavicle and first rib	50:59
Complications of day-case angiography using 5F catheters	50:102
Variation in portal and hepatic venous anatomy as shown by magnetic resonance imaging: implication for transjugular intrahepatic portosystemic shunt	50:108
The significance of ipsilateral leg ischaemia after renal transplantation	50:111
Intravenous leiomyomatosis, an unusual cause of intracardiac filling defect	50:123
Congenital anomalies of the portal venous system – CT appearances with embryological considerations	50:174
The Role of venous colour flow Doppler to aid the non-diagnostic lung scintigram for pulmonary embolism	50:232
Percutaneous transluminal angioplasty in femoral artery occlusions: primary and long-term results in 107 claudicant patients using femoral and popliteal catheterization techniques	50:237
Pictorial review: imaging of traumatic aortic injury	50:281
Hypoxia and myocardial ischaemia during peripheral angioplasty	50:301
The use of the wallstent endovascular prosthesis in the treatment of malignant inferior vena cava obstruction	50:310
Hypoplastic left brachiocephalic vein: collateral drainage via the hemiazygos system demonstrated at intravenous urography	50:341

Femoral nerve palsy complicating femoral artery puncture and intra-arterial thrombolysis ... 50:345
Demonstration of popliteal artery entrapment on leg muscle scintigraphy with 99mTc MIBI and single photon emission tomography ... 50:404

Apical pleural cap mimicked by post-traumatic pseudomeningocele ... 50:870

DIGESTIVE TRACT AND ABDOMEN

Palliation of malignant oesophageal perforation and proximal oesophageal malignant dysphagia with covered metal stents ... 50:11
Clostridium difficile colitis: correlation of CT findings with severity of clinical disease ... 50:153
Update: abdominal tuberculosis – unusual findings on CT ... 50:223
Radiological appearance of colonic stricture associated with the use of nonsteroidal anti-inflammatory drugs ... 50:268
Plastic-covered metallic endoprostheses in the management of oesophageal perforation in patients with oesophageal carcinoma ... 50:304
Can barium enema indicate when colonoscopy will be difficult? ... 50:318
Management of oesophageal fistula by radiologically-guided instillation of tissue adhesive ... 50:335
Transverse colon volvulus: unusual appearance on barium enema and review of the literature ... 50:342
Calcified stones in right-sided colonic diverticula simulating gallstones ... 50:418
Achalasia: an unusual cause of stridor ... 50:496
Pelvic mucocele after sub-total colectomy and rectal excision ... 50:499
Improving visualization of distal and terminal ileum during the small bowel meal: an evaluation of fluoroscopic manoeuvers ... 50:548
Use of antispasmodic drugs in double contrast barium enema examination: glucagon or buscopan ... 50:553
The use of air or CO_2 as insufflation agents for double contrast barium enema (DCBE): is there a qualitative difference? ... 50:558
Complications of the ileal pouch: is the pouchogram a useful predictor? ... 50:613
Imaging of small cell carcinoma of the oesophagus ... 50:634
Intestinal stricturing as a late presentation of appendiceal abscess ... 50:644
Wessex regional radiology audit: barium enema in cola-rectal carcinoma ... 50:647
Ultrasound in the diagnosis of jejunal enterolith obstruction ... 50:725
Ossifying metastases from carcinoma of the large bowel demonstrated by bone scintigraphy ... 50:730
The CT small bowel faeces sign: description and clinical significance ... 50:765
Ultrasound in the differential diagnosis of appendicitis ... 50:768

EAR, NOSE, THROAT, MOUTH AND EYES

Ultrasound of Kimura's disease ... 50:170
The application of ultrasound criteria for malignancy in differentiating tuberculus cervical adenitis from metastatic nasopharyngeal carcinoma ... 50:391
Laryngeal chondroma: an unusual cause of upper airway obstruction ... 50:412
Primary and recurrent inverting papilloma: appearances with magnetic resonance imaging ... 50:472
MRI T staging of squamous cell carcinoma of the oral cavity: radiological–pathological correlation ... 50:533
Pre-operative imaging of esthesioneuroblastoma ... 50:639

EDITORIALS, REVIEWS, OPINIONS AND PERSONAL VIEWS

Nuclear medicine: radiologists must love it or leave it ... 50:73
Interventional radiology of the pleural space ... 50:205
The radiological investigation of constipation ... 50:429
Measuring the effects of imaging: an evaluative framework ... 50:513

ENDOCRINE SYSTEM

Parathyroid carcinoma uptaking pertechnetate but not thallium – a serious potential pitfall ... 50:190
Metastatic cervical nodes in papillary carcinoma of the thyroid: ultrasound and histological correlation ... 50:229
Contrast-enhanced dynamic MRI of adrenal masses: classification of characteristic enhancement patterns ... 50:295
Amyloid goitre: CT and MR findings ... 50:409
Lingual thyroid in association with a lateral ectopic thyroid mass ... 50:501
The role of pre-operative thallium-technetium subtraction scintigraphy in the surgical management of patients with solitary parathyroid adenoma ... 50:677

HAEMATOPOIETIC, LYMPHATIC AND RETICULOENDOTHELIAL SYSTEMS

Multiple myeloma – a rare presentation ... 50:63
Lymphatic filling in arthrography following total hip replacement ... 50:90
Ultrasound demonstration of lymph nodes in the hepatoduodenal ligament ('daisy chain nodes') in normal subjects ... 50:99
Metastatic cervical nodes in papillary carcinoma of the thyroid: ultrasound and histological correlation ... 50:229
The application of ultrasound criteria for malignancy in differentiating tuberculus cervical adenitis from metastatic nasopharyngeal carcinoma ... 50:391
The prevalence and clinical significance of lymphadenopathy in primary biliary cirrhosis ... 50:396
Mediastinal lymph node enlargement and splenomegaly in primary hypogammaglobulinaemia ... 50:489
Magnetic resonance imaging of spinal cord compression in thalassaemia before and after radiation treatment ... 50:504
Computed tomography in the assessment of response to limb compression in unilateral lymphoedema ... 50:541
Splenic infarct in sickle cell disease ... 50:573
Radiographic manifestations of AIDS related lymphoma in the thorax ... 50:607
Multiple myeloma – a cause of obstructive jaundice ... 50:874

INTERVENTIONAL TECHNIQUES

Palliation of malignant oesophageal perforation and proximal oesophageal malignant dysphagia with covered metal stents ... 50:11
Ultrasound-guided pigtail catheter drainage of malignant pericardial effusions ... 50:15
A potential pitfall in bronchial artery embolization ... 50:105
Variation in portal and hepatic venous anatomy as shown by magnetic resonance imaging: implication for transjugular intrahepatic portosystemic shunt ... 50:108
The use of expandable metal stents in transplant renal artery stenosis ... 50:245
Plastic-covered metallic endoprostheses in the management of oesophageal perforation in patients with oesophageal carcinoma ... 50:304
The use of the wallstent endovascular prosthesis in the treatment of malignant inferior vena cava obstruction ... 50:310
Management of oesophageal fistula by radiologically-guided instillation of tissue adhesive ... 50:335
Femoral nerve palsy complicating femoral artery puncture and intra-arterial thrombolysis ... 50:345
Percutaneous stenting: a novel way of treating an embolus ... 50:346
Retrograde radiological retrieval and replacement of double-J ureteric stents ... 50:562
Pelvic arterial embolization following hysterectomy and bilateral internal iliac artery ligation for intractable primary post partum haemorrhage ... 50:710
The radiological treatment of hepatic artery aneurisms ... 50:792
Kinking of a Simon nitinol vena caval filter during insertion ... 50:798
Percutaneous transluminal angioplasty of irradiation induced bilateral subclavian artery occlusions ... 50:805
Percutaneous transhepatic portographic embolization (PTPE) for recurrent hepatic encephalopathy derived from intrahepatic portal-systemic shunts ... 50:808
Fluoroscopically-guided retrieval of ureteric stents ... 50:860
Percutaneous transperitoneal balloon sphincteroplasty during laparoscopic cholecystectomy for choledocholithiasis ... 50:867
Treatment of a carotid artery pseudoaneurism with a polyester covered nitinol stent ... 50:872
Iliac artery rupture – percutaneous treatment by stent insertion ... 50:876

PAEDIATRIC

Intraperitoneal fluid collections following liver transplantation in a paediatric population ... 50:40
Childhood ossification of the anterior longitudinal ligament of the cervical spine ... 50:115
Neonatal adrenal haemorrhage presenting as an acute right scrotal swelling (haematoma) – value of ultrasound ... 50:127
Diagnosis of fetal vesicoureteric reflux as the cause of pelvicalyceal dilatation on antenatal ultrasound ... 50:192
The post-angiocardiography urogram in children: should it be abandoned? ... 50:479
The sonographic appearances of neonatal herpes simplex encephalitis ... 50:574
Ultrasound in children with osteomyelitis ... 50:623
Sonographic investigation of female infants with inguinal masses ... 50:696
Inflammatory pseudotumours in children: CT and ultrasound appearances with histopathological correlation ... 50:782
Imaging children with ambiguous genitalia and intersex states ... 50:823
Childhood lymphoma: diagnostic accuracy of chest radiography for severe pulmonary complications ... 50:842
The antenatal diagnosis and management of abdominal wall defects: the northern region experience ... 50:855

REPRODUCTIVE SYSTEM

Testicular infarction mimicking tumour on scrotal ultrasound – a potential pitfall ... 50:49
The potential value of magnetic resonance imaging in infertility ... 50:75
The value of MRI in the assessment of traumatic intra-uterine adhesions (Asherman's syndrome) ... 50:80
Paratesticular rhabdomyosarcoma – colour Doppler appearances ... 50:130
Fetus-in-fetu – imaging, surgical and pathological findings ... 50:274
The incidence and significance of acute post-hysterectomy pelvic collections ... 50:322
Multiple epidermoid cysts of the testes – the ultrasound appearances ... 50:414
Ultrasound and MRI findings in a scrotal epidermoid cyst ... 50:576
Ovarian sex cord tumour with annular tubules: imaging findings ... 50:581
High flow priapism diagnosed by colour Doppler flow mapping ... 50:651
Pelvic arterial embolization following hysterectomy and bilateral internal iliac artery ligation for intractable primary post partum haemorrhage ... 50:710
Fournier's gangrene – roentgenographic and sonographic findings ... 50:728

RESPIRATORY TRACT AND MEDIASTINUM

Enlargement of a mediastinal mass during treatment for Hodgkin's disease may be due to accumulation of fluid within thymic cysts 50:61
Magnetic resonance scanning in cystic fibrosis: comparison with computed tomography 50:84
Comparison of ultrasound with fluoroscopy in the assessment of suspected hemidiaphragmatic movement abnormality 50:95
A potential pitfall in bronchial artery embolization 50:105
The role of venous colour flow Doppler to aid the non-diagnostic lung scintigram for pulmonary embolism 50:232
Serial changes of cystic air spaces in fibrosing alveolitis: a CT-pathological study 50:357
V/Q defects and deep venous thrombosis following total hip replacement 50:400
Mediastinal lymph node enlargement and splenomegaly in primary hypogammaglobulinaemia 50:489
Thoracic metastases from nasopharyngeal carcinoma presenting as hypertrophic pulmonary osteoarthropathy: scintigraphic and CT findings 50:545
Radiographic manifestations of AIDS related lymphoma in the thorax 50:607
Cryptococcal pneumonia in patients with the acquired immunodeficiency syndrome 50:756
Accuracy of CT in predicting the cause of bronchiectasis 50:839
Childhood lymphoma: diagnostic accuracy of chest radiography for severe pulmonary complications 50:842
Apical pleural cap mimicked by post-traumatic pseudomeningocele 50:870

TECHNIQUES, APPARATUS, CONTRAST MEDIA AND TRIALS

Iohexol in patients undergoing urography: a comparison of polypropylene containers (unique soft pack®) and glass vials 50:44
Complications of day-case angiography using 5F catheters 50:102
Buscopan and glaucoma: a survey of current practice 50:160
A Mars bar is not an adequate fatty meal – a comparison with calogen 50:180
Radiation dose to the lens from coronal CT scanning of the sinuses 50:265
Acoustic noise levels generated during high field MR imaging 50:331
Intubation fluoroscopy times using a new enteroclysis tube 50:339
Effects on renal haemodynamics and tubular function of the contrast medium ioxaglate in renal transplant patients 50:476
Improving visualization of distal and terminal ileum during the small bowel meal: an evaluation of fluoroscopic manoeuvers 50:548
Use of antispasmodic drugs in double contrast barium enema examination: glucagon or buscopan 50:553
The use of air or CO_2 as insufflation agents for double contrast barium enema (DCBE): is there a qualitative difference? 50:558
The use of ultrasound-guided cutting-needle biopsy in the neck 50:690
Current usage of contrast agents. Anticoagulant and antiplatelet drugs in angiography and angioplasty in the UK 50:699
Variation in angiographic practice and technique amongst interventional radiologists in the UK: assessment by postal questionnaire 50:705

URINARY TRACT

The significance of ipsilateral leg ischaemia after renal transplantation 50:111
The diagnostic value of contrast-enhanced computed tomography in acute bilateral renal cortical necrosis 50:126
Ileal loop conduit volvulus: a rare but reversible cause of bilateral ureteric obstruction 50:177
Renal transplant vein occlusion: an early diagnostic sign? 50:251
Renal involvement in primary Sjögren syndrome – a rare cause of renal pseudotumour 50:271
Bilateral solid multifocal intrarenal and perirenal lesions: differentiation with ultrasonography, computed tomography and magnetic resonance imaging 50:288
Hypoplastic left brachiocephalic vein: collateral drainage via the hemiazygos system demonstrated at intravenous urography 50:341
Delayed CT findings in acute renal infection 50:364
The post-angiocardiography urogram in children: should it be abandoned? 50:479
Increased renal reflectivity in sickle cell disease: prevalence and characteristics 50:566
Optimization of prostate carcinoma staging: comparison of imaging and clinical methods 50:593
The role of intravenous contrast enhancement in magnetic resonance imaging of prostatic carcinoma 50:601
Colour Doppler ultrasound in renal transplant artery stenosis: which Doppler index? 50:618
Renal adenocarcinoma with ultrasonographic appearances suggestive of angiomyolipoma 50:659
Unusual perirenal sonographic pattern in malignant lymphoma of the kidney 50:720
Diagnosis of acute ureteral calculous obstruction in pregnant women using colour and pulsed Doppler sonography 50:864

MISCELLANEOUS

Domiciliary radiography: an important service? 50:51
Cerebrotendinous xanthomatosis in two sisters: case reports and MR imaging 50:117
Patients' perceptions of magnetic resonance imaging 50:137
Direct and indirect MRI findings in ganglion cysts of the common peroneal nerve 50:168
Ultrasound of Kimura's disease 50:170
CT appearances of contrast medium extravasations associated with injury sustained from blunt abdominal trauma 50:182
